### **TARWF Co-Presidents Message April 2020**

“These are the times that try men’s souls,” wrote Thomas Paine. America, and the world, have been fighting another war, not against an enemy that we can see, rather an invisible attacking force. COVID-19 is a formidable foe that we are defeating as we write this letter. Our President, with amazing stamina, optimism and fortitude, has led our Country in this battle. We as Republican Women will follow his advice and help him win this victory, and a victory in November.

Sheltering in our homes is a big part of the plan, so our next meetings may be electronic and if so, you will receive an e-mail with a link to “click on” to join the meeting. Wearing masks, washing our hands frequently and social distancing will do the job until medicines and vaccines are available. We are all finding ways to help our families and neighbors and to honor those who are serving us and protecting us.

We recently participated in a Zoom meeting hosted by our Region 8 Director, Sandy Rains, and attended by the rest of our Region 8 Club Presidents. All were upbeat and shared the ways they were staying in touch with their members. The goal for CFRW clubs is to be “the arsenal of Democracy” in the upcoming November elections.

The OC Republican Party is implementing the Get Out the Vote (GOTV) plan in coordination with the California Republican Party and the RNC, activities and new ideas via Voter Contact Tools. These will be explained in future emails, so stay tuned.

We are all looking forward to getting back to normal as soon as possible even though that normal may mean less hugging and handshaking. Hoping to see you all soon.

Warmly,  
Judy and Pat

By Bill O'Reilly  
China's Bio weapon, and Nancy Pelosi...

My wife Angie will tell you that I study history and world events fluently every day. I have studied China for many years. To get answers I need to question, I call many I know in Washington on Capitol Hill from my tenure on 2 Presidential campaigns and Presidential talks and I ask them for straight answers to better understand what affects us as a nation.

Well, in 2016 America elected a new Sheriff: Donald J Trump. For decades the Chinese walked all over America but the new President said "not anymore". He strangled China's economy to the point their economy was in its worst free fall ever. He negotiated a new trade agreement. He had President Xi by the balls. America's economy

was on fire and unstoppable. President Xi Jinping knew he could not beat the US militarily and he knew any domesticated economic attack would fail as our economy was too strong.

He had to act, but how? Enter the USA democrats led by Pelosi and Schiff. Impeachment. A hoax! A distraction for our people and President. Xi Jinping and his thugs see this. They are not stupid. They have very intelligent intellectual thinkers in their government. You must understand, the Chinese regime are truly Barbarians. Notice I did not say all Chinese. The Chinese people are a good people. I enjoy my interactions with them. The Communist regime has millions of its own citizens slaving in gulags simply for speaking against the government or openly practicing Christianity. Knowing they could not attack us openly they needed to be coy, like a deceptive fox.

In my opinion, I believe the regime released a biological weapon upon the world that does not kill everyone, but kills "enough," especially the elderly and infirmed. Back in WWII Hitler thought the same way. He got rid of what he considered the useless and rejects of society.

President Trump's task force uses models to figure things. Xi used and uses "models" too. China's President figured that if he killed a few of his own (a few hundred thousand to them would be a few out of 1.4 billion people) and spread the virus to other nations, especially to the USA, they would "level the economic playing field" and not have fired a shot. Losses of his own people were acceptable costs of a new war. When China's own doctors attempted to sound the warning, they were immediately silenced. In fact, one died and another has simply disappeared. President Trump and the other allied leaders know this is what happened. They have under reported their own deaths. President Trump knows he cannot outrightly seek retribution. His news conference recently showed me this when he balked publicly about no outright retribution over Xi's handling of this and he immediately brought up the "trade deal".

However, President Trump was not being weak, he too was now being coy. We know this was a biological weapon. The bat in the wet food market story is BS. President Xi knows we know it. President Trump also has announced he sent 2 battle groups of destroyers and other ships to sea to fight drugs and rogue actors like Iran should they try anything. I say he did this to show President Xi he knows what has transpired, as we have the greatest intelligence assets and that the Chinese should rethink further action. Politics is premier. We cannot overtly attack China for what they have done as we would also suffer greatly. We all know this.

China has temporarily achieved its goal. America was literally consumed by the phony impeachment of President Trump brought on by the ultra-left Democrats supported by democrat rank and file and 1 elite Republican, Mitt Romney, and Xi Jinping saw an opening. He took it. President Xi did what Trump usually does. He walked onto the world stage and threw a grenade into the "room" and left. It exploded in the form of this worldwide pandemic. It brought the USA and the rest of the world to its knees and leveled the economic playing field. Our economy is now near depression.

President Xi did not fire a shot. Now President Trump needed to up his game and putting our Naval ships to sea was his next move. He said he is a "Wartime" President, and he is. But now on not 1 but 2 fronts: the coronavirus and the Chinese communists. While the Saudis and Russians are screwing with Crude Oil prices they are not overtly doing what this pandemic is doing. The drug smuggling story for dispatching the Naval Force is BS and the world knows it. I am of the opinion President Trump can bring us back from this catastrophe but with a changed playing field. President Trump is a genius at game theory and financial matters. And he has become a champ at international politics too in a short time. I am sure he can once again lead the economy to even stronger strength and greatness than it was. He can do it quickly I am sure of it. He has proved it.

Xi Jinping needs to be sent a message loud and clear, "NEVER AGAIN". America must bring all of our critical manufacturing back from China beginning with our medicines they were recently threatening to withhold. We can do it immediately. Again, another reason for Trump putting to sea such a sizable Naval Force, he sent President Xi a clear message.

We must ride out the next few weeks. Then we and the world pick up the pieces and move ahead. The Democrats who have given President Xi this opening must pay a heavy price in November as they truly have cost and continue to cost America precious lives by the phony scandals. Nancy Pelosi (D-CA) continues to help the Chinese by her daily shameless attacks upon the President and meddling in stimulus packages as she did this last weekend and continues to do. Her statements are appalling and the lowest of low. I did not think she could go any lower. What a disgrace she is to our nation.

But, putting Nancy Pelosi aside, make no mistake, China must and will be taught a lesson the likes they have never seen before and President Trump is the man to pull the trigger.

We the People must teach the Democrats the same lesson at the polls. They are radical and are the enemy of a

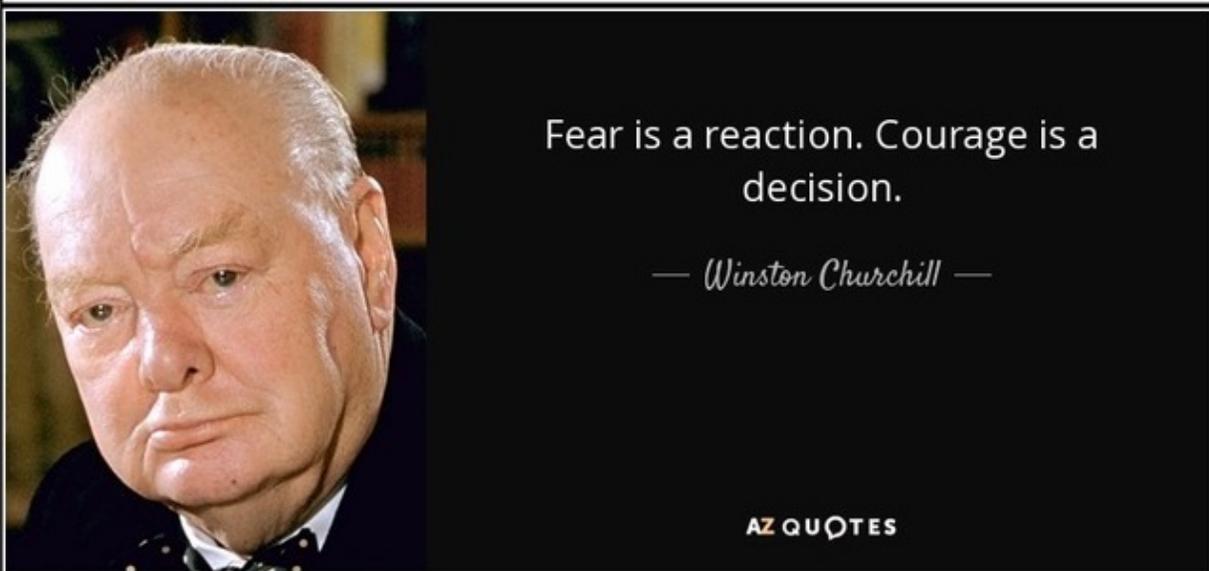

free America, I am certain of it. The entire democratic party of our forefathers is dead.

Remember people, President Trump warn us of the Coronavirus in his State of the Union Speech, he spoke of it, he said he was on Top of it. Recall, that after he spoke, Speaker Pelosi ripped up the speech calling President Trump's words "a manifesto of lies". She disgraced the country and all of our fellow honored citizens present in the House Chamber. Well, she now has American blood on her hands. She is directly and morally responsible for the needless deaths as well as the Chinese, she and Adam Schiff (D-CA) alike. The left and democrats laughed as she tore up President Trump's SOTU speech. And, as they laughed the disease he just spoke of in that address came to our shores.

Republicans and Democrats alike are now sick and dying. Your family members and mine. Our grandparents and middle aged citizens alike. Bodies are being loaded in trucks with forklifts in Brooklyn outside of hospitals. Lots of people are not safe. Our liberty has been suspended. As we bury our dead without proper funerals from this calamity let us drive nails into the coffin of the Democrat Party as well in November.

It is time People. Stand up for your rights and your country! Our Liberty and survival is at stake! I am praying for God's blessing on our nation. God gave us the ability to think for ourselves and it is time we placed blame for all this death where it belongs: on the doorsteps of Nancy Pelosi, Adam Schiff and Xi Jinping directly.

Wake Up America, WAKE UP!

## Now is the Time to Help, Not Hurt Small Businesses in California

By Carl DeMaio

If Governor Gavin Newsom and California Democrats really wanted to help struggling small businesses and millions of unemployed California workers they would immediately suspend or repeal a variety of damaging and costly taxes, mandates and regulations that have been choking the California economy for years.

At the top of the list of relief should be the repeal of AB5.

Last year Governor Newsom and the Democrats passed AB5 into law to ban the use of independent contractors in California and impose stiff penalties on small businesses for hiring independent contractors. AB5 is an outrageous attempt to deprive Californians of the freedom to work, destroy the once-booming "gig" economy, and boost government tax revenues by

forcing independent contractors and their clients to pay higher employment taxes.

Even before the Coronavirus, AB5 had devastated hundreds of thousands of workers already — and now AB5 is one of the biggest obstacles for unemployed Californians seeking what little work is available.

Gov. Newsom has the power to suspend AB 5 completely so small businesses and independent contractors can find work during these challenging times. I want to commend Assemblyman Kevin Kiley for leading the fight to ask the Governor to do this, but Newsom has refused to do it.

What's worse, Gov. Newsom is weaponizing the Coronavirus federal bailout program to enforce AB5 and punish small businesses and independent contractors.

President Trump wisely included independent contractors in the unemployment insurance provisions of the federal Coronavirus bailout program since many have lost their clients during the shutdown.

Unfortunately, Gov. Newsom has instructed the state's Unemployment Insurance Program to use the federal bailout funds to collect data and evidence from independent contractors when they seek the unemployment benefits to build enforcement cases against small businesses that used independent contractors after January 1, when AB5 went into effect.

I have heard from many independent contractors who fear if they apply for federal unemployment benefits, they will get their small business clients in trouble under AB5.

Punishing struggling small businesses and independent contractors is NOT what we need during this economic crisis.

If California politicians are serious about helping ease the economic impact of Coronavirus they need to start by repealing or suspending AB5.

Concerned taxpayers who agree that California politicians should suspend or repeal AB 5 can help send a message today by signing this petition:

As we continue to hear and read information from various sources pertaining to COVID-19, we wonder what is true, and what is fake news.

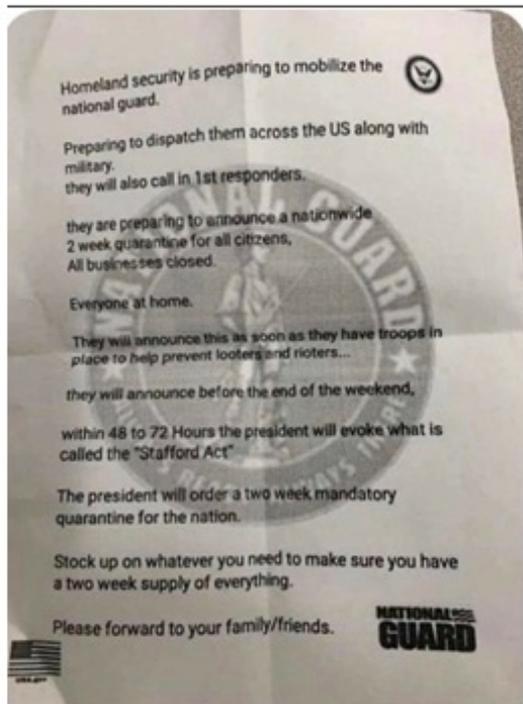

I was sent the flyer below by a fellow Republican woman asking me if this was real. Unfortunately, this was not the first I had heard of this information, however it was the first I had actually seen a document so misleading and deceitful as this one.

***Having the National Guard logo, along with others surely most will think it's real at first sight. It is FAKE NEWS!***

I spoke with an Army Colonel (whom I know and trust), who confirmed the information regarding a complete lock-down of the state, including stores, is not true. He stated the military presence we see among us is simply the Guard prepping, packing, and distributing food and other supplies to those in need. They are also readily available to assist first responders if necessary.

COVID-19 is real, but the threat to our Nation will not last, as we are the GREATEST NATION in the world! We are the STRONGEST NATION in the world, the best resourced, with the most brilliant minds in the world, and WE WILL PREVAIL!

Stay safe, stay sanitized, and help those who can't help themselves. GOD BLESS the USA!

Tw'as late in '19 when the virus began,  
ringing chaos and fear to all people, each land.  
People were sick, hospitals full,  
Doctors overwhelmed, no one in school.  
As winter gave way to the promise of spring,  
The virus raged on, touching peasant and king.  
People hid in their homes from the enemy unseen.  
They YouTubed and Zoomed, social-distanced, and cleaned.  
April approached and churches were closed.  
"There won't be an Easter," the world supposed.  
"There won't be church services, and egg hunts are out.  
No reason for new dresses when we can't go about."  
Holy Week started, as bleak as the rest.  
The world was focused on masks and on tests.  
"Easter can't happen this year," they proclaimed.  
"Online and at home, it just won't be the same."  
Maundy Thursday, Good Friday, the days came and went.  
The virus pressed on; it just would not relent.  
The world woke Sunday and nothing had changed.  
The virus still menaced, the people, estranged.  
"Pooh pooh to the saints," the world was grumbling.  
"They're finding out now that no Easter is coming.  
"They're just waking up! I know just what they'll do!  
Their mouths will hang open a minute or two,  
And then all the saints will all cry boo-hoo.  
"That noise," said the world, "would be something to hear."  
So it paused and the world put a hand to its ear.  
And it did hear a sound coming through all the skies.  
It started down low, then it started to rise.  
But the sound wasn't depressed.  
Why, this sound was triumphant!  
It couldn't be so!  
But it grew with abundance!  
The world stared around, popping its eyes. Then it shook! What it saw was a shocking  
surprise!  
Each saint in each nation, the tall and the small,  
Was celebrating Jesus in spite of it all!  
It hadn't stopped Easter from coming! It came!  
Somehow or other, it came just the same!  
And the world with its life quite stuck in quarantine  
Stood puzzling and puzzling.  
"Just how can it be?"  
"It came without bonnets, it came without bunnies,  
It came without egg hunts, cantatas, or money."  
Then the world thought of something it hadn't before.  
"Maybe Easter," it thought, "doesn't come from a store.  
Maybe Easter, perhaps, means a little bit more."  
And what happened then?  
Well....the story's not done.  
What will YOU do?  
Will you share with that one  
Or two or more people needing hope in this night?  
Will you share of the source of your life in this fight?  
The churches are empty - but so is the tomb,  
And Jesus is Victor over death, doom, and gloom.  
So this year at Easter, let this be our prayer,  
As the virus still rages all around, everywhere.  
May the world see hope when it looks at God's people.  
May the world see the Church is not a building or steeple.  
May the world find Faith in Jesus' death and resurrection,  
May the world find Joy in a time of dejection.  
May 2020 be known as the year of survival,
